CTNR Medical Scientist Programme

The CTNR Neuro Medical Scientist Programme includes the financial support of positions for (non-physician) medical scientists/doctoral candidates with a focus on neurosciences. The financial support is used to give young scientists the opportunity to apply for third-party funds ("Anschubfinanzierung") or to complete the doctorate ("Überbrückungsfinanzierung"). For the current call, the proposed project should contribute to the strategic aim of the CTNR: preparation and initiation of cooperative research projects.

Deadline: 07 January 2021
