4th CTNR Members' Meeting with Board election

30 October 2020, at 2:00 pm
Hörsaal Zentrum für Nervenheilkunde
Gehlsheimer Straße 20, 18147 Rostock
(Participation only by invitation.)

First Clinician Scientist Retreat

On October 14th, 10 Clinician Scientists of the Rostock Academy for Clinician Scientists (RACS) and of the Clinician Scientists Programs of the three scientific priority areas Biomedical Engineering/Biomaterials, Neurosciences and Oncology met the first time on a scientific retreat at the Ostseehotel Dierhagen. In addition to lectures by the young scientists, their evaluations and meetings of the steering committee, a workshop on the subject of research funding and third-party funding applications was held by the CTNR coordinator.

CTNR Qualification Program - Fundamentals of Scientific Work

On November 2nd, the CTNR is starting a series of seminars for young scientists on "the fundamentals of scientific work for doctoral students in medicine". The aim is to impart basic knowledge and skills in scientific work. In addition, an introduction to the statistical basics will be given. At the end of the course, the young scientists should have acquired the basic knowledge to create their own scientific work. They will learn to select and evaluate literature in order to formulate their research hypotheses based on this, to choose a design that is suitable for the research work and to apply appropriate procedures for evaluating the data. The seminars always take place on Mondays at 5 p.m. at Hörsaal Zentrum für Nervenheilkunde, Gehlsheimer Str. 20, 18147 Rostock. The seminar is hosted by the Forensic Psychiatry (Prof. Birgit Völlm).
