## PLANNED TOPICS AND LECTURERS:

- ## AIMS:
- Preparation for international Master and PhD programmes in Germany
  - Further specialisation in computer science and information technology
  - Learning in a stimulating environment
- ## BENEFITS:
- Free accommodation
  - No fee for students
  - Reimbursement of travel costs for participants from the Baltic and neighbouring states

The Summer School lasts 16 days and contains six special modules with corresponding tutorials, one module "Academic Presentation" (German or English) plus individual research and studies for the module "Academic Writing" with a total amount of 8 credits. Credits are allocated based on student's workload (ECTS-system). The Summer School ends with a final exam. Upon successful completion of the courses, a certificate, which confirms the ECTS-credits earned as well as the grade, is awarded. The certificate is signed by all lecturers and includes a detailed description of the content and number of the courses attended.
