

Your strengths. Our joint impact.

Assistant Audit & Assurance (m/f/x)

Apply online:

We call our work ‘demonstrating impact’. That means an environment in which you can share your curiosity, knowledge and passion for excellence with others. Because our work demonstrates impact, Grant Thornton is one of the most successful firms for mid-market companies, start-ups and the DAX. With us you can support our clients’ growth regionally, nationally and internationally, and at the same time broaden your view of the environment, society and economy.

Professional strengths that set you apart.

- You have successfully completed your business studies with good grades and a relevant focus, e.g. auditing, finance or accounting
- Ideally, you have already gained some practical experience through internships during your studies, working student activities or as part of an apprenticeship
- You are curious, committed and a team player (m/f/d)
- You want to develop yourself further, enjoy lively change and don't think in a standardized way
- You are characterized by your strong conceptual and analytical skills as well as your independent, structured way of working
- You are business fluent in German, have a very good command of English and are experienced in working with MS Office

Ready to demonstrate impact? Your main tasks will be:

- You will support the team in auditing annual and consolidated financial statements, including those of international companies
- You will work on a wide range of issues that arise in the course of auditing annual and consolidated financial statements
- You will be actively involved in audit-related consulting projects

- You use your expertise to support the preparation of audit reports

What do we offer? The chance to shape your future. As well as to carve the world of tomorrow.

A diverse training programme, tasks with responsibility that help you grow, and a strong team –welcome to Grant Thornton! We’re already practicing active talent management, a positive feedback culture and an environment of mutual appreciation. We’re constantly developing and learning about agile working, New Work and having a digital mindset.

Interested? We are looking forward to your application!
